Fire & Safety Engineering with complete Range of:

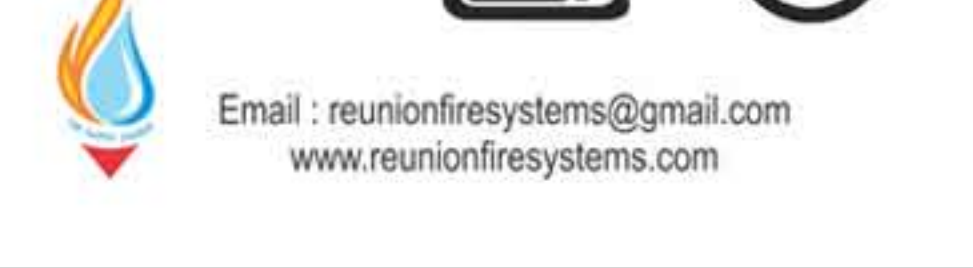

Electrical & Mechanical Engineering of:

All Type of Engineering & Fabrications of:

- Design, Consulting and Contracting
- Drawing and Documentation
- Service and Maintenance Contract
- Fire Approvals and Renewals
- Safety Training & Audits
- Wet & Dry Raiser Systems
- Fire Hydrant and Sprinkler Systems
- High - Low Velocity Deluge Water Spray Systems
- Fire Pump set and Control Systems
- Alarm Check Valve Systems
- Personal Protection & Traffic Safety Equipments
- Fire Extinguishers and Safety Equipments
- Conventional & Addressable Fire alarm Systems
- Gas Release Control systems
- Emergency Lighting Systems
- Fire Suppression Systems
- Kitchen Hood Systems
- Air Sampling Detection Systems
- CO2 Flooding Systems
- Water Spray Curtain Systems
- Evacuation and Signage Systems
- Fire Preventing Doors with Panic Liver
- Quick Response Modular Fire Extinguisher
- IBM Systems
- C.C.T.V Surveillance - Access Control
- HT and LT Electrical installation
- DG set and Diesel Engine Fire Pump
- Mechanical Automations Systems
- Inverter/UPS & Solar Power Grid Systems
- PLC, MCC and AMF Control Panel Fabrication
- SS/MS Fabrication Engineering
- Structural and Truss Fabrication
- Glass and Metal Cladding
- Innovative Fabrication

Reunion Fire Systems Pvt. Ltd. was established in Kerala with the initial focus on consulting, contracting and approvals of fire safety, mechanical, electrical and structural fabrication engineering. The company has diversified into the full-service trading, installation and maintenance operation delivering high-quality systems including Mechanical & Electrical Installations, Structural Fabrication, Fire Hydrant System, Fire Alarms with Public Addressing System, Gas Suppression, Sprinklers, Signages and Security Systems, UPS/Inverter with Solar Power Grid System. The company is registered in India CIN U74999KL2016PTC046738 and is approved by the Government of India to carry out trading, supply, installation and maintenance of above systems. We pride ourselves on our ability to offer the best service for any size contract with a personal and caring attitude towards our customers. Whatever system you have installed, Reunion Fire Systems Pvt. Ltd. will ensure that it is serviced and maintained to the correct standards laid down by International standards. The policy is to create success for our clients by identifying their needs and providing cost effective, innovative and value adding solutions. We are committed to meeting customer requirements and increasing customer satisfaction through continual improvement of our projects, services, and established quality management system. All systems are designed and installed under the supervision of very experienced and technically qualified engineers. We installed systems that are of high efficient quality, durable and reliable with updated technology.
